FOR IMMEDIATE RELEASE

Members of National Not-for-Profit Association Save 35.99% on Prescription Drugs

EDWARDSVILL, IL, November 29, 2008 -- In figures just released, it was disclosed that members of the Federation of American Consumers and Travelers (FACT) saved 35.99% on prescription drugs during the month of September -- the latest month for which statistics are available.

FACT is a not-for-profit association of consumers which was formed a quarter-century ago, and which presently serves more than one million individuals and families nationwide.

In addition to discounts on prescription drugs, the group offers a [discount dental plan](#), [vision care](#), [scholarships](#), several [financial-aid programs](#), timely [consumer information](#), and eligibility to apply for [medical insurance](#) protection.

FACT's managing director, Vicki Rolens, says: "All-in-all, FACT offers more than 30 benefits to consumers who choose to join. The prescription-drug discount program is by far one of the most important and most utilized benefits we provide, and the latest numbers show why. In these economic times, cutting prescription costs by more than a third is huge, and we are pleased to be able to deliver such savings on such a critical need for so many people."

Ms. Rolens pointed out that FACT dues are \$3 a month, payable annually. "If someone gets just a handful of prescriptions filled per year," she said, "savings will typically be far greater than the entire one-year dues."

"There are various prescription-drug discount plans available to the consumer" says Ms. Rolens. "Some of them may work as advertised. *However ...*

"FACT members can take advantage of a *proven, well-established* prescription drug discount program -- and it's entirely *free*. The [Program](#) is one of the best we've seen," Ms. Rolens states, "and the entire cost is included in the member's \$3-a-month FACT dues!"
